(71, 3)
```

In [14]:
```
df.describe()
```

Out[14]:

	Unnamed: 0	weight
count	71.000000	71.000000
mean	36.000000	261.309859
std	20.639767	78.073700
min	1.000000	108.000000
25%	18.500000	204.500000
50%	36.000000	258.000000
75%	53.500000	323.500000
max	71.000000	423.000000

The describe output shows that the mean weight is 261.3. The minimum weight is 109, while the maximum is 423. Half of the chicks weigh 258 or less.
